

## 2023 Worldwide Racquetball Day Invitation to Racquetball Area of the World Leaders

Hello, Racquetball **Family** Around the World!

USA Racquetball warmly invites you to partner in an exciting concept that involves the entire Worldwide Racquetball community, both Indoor and Outdoor!

**2023 Worldwide Racquetball Day, September 9, 2023**

This worldwide event will be September 9 (and 10, if preferred), and wouldn't it be wonderful to see hundreds of racquetball tournaments being held that same weekend in Asia, Europe, North America, and South America?

**Provide an event for racquetball players of all skill levels**

**Build visibility for Racquetball around the globe**

**Create unity for racquetball lovers worldwide**

**Mentor and train a few new tournament directors**

The world is a big place, but we have some ideas to offer to help bring us all together:

- Social media, websites, and email to ensure the word gets out to all players
- Common hashtags and like/share/forward on information all along the way
- World map of tournament locations with links to event entry information
- Results published for all event division winners

*We would love to hear your ideas, too!*

In the U.S., we will concentrate on inexpensive round-robin self-refereed racquetball. To support and encourage new tournament directors, we will be providing a collection of helpful documents, forms, incentive ideas, etc., to help new U.S. tournament directors. If you are interested in reviewing these, we would be happy to forward them. These documents will be in English, but we hope Google Translate and your English-speaking colleagues could be a great resource for translation!

*In summary:*

The International Racquetball Federation and sponsor Gearbox endorse and support Worldwide Racquetball Day!

1. To get more countries and locations involved, will you and the rest of our worldwide racquetball leaders publicize Worldwide Racquetball Day and encourage tournament directors and club owners in your areas to host a tournament on September 9 and/or 10?
2. If events are already scheduled on your tournament calendars that weekend, we would love to include them in promoting 2023 Worldwide Racquetball Day!
3. Please send us your thoughts, and if you are interested in being a part of 2023 Worldwide Racquetball Day and helping make racquetball history, forward the names and email addresses of your colleagues and country leaders who would benefit from this information.

Sincerely,

Cindy Tilbury (cindy.tilbury@att.net)

Cheryl Kirk (cherylkkirk@aol.com)
